AFTERMARKET PARTS

**Original Equipment Replacements Guaranteed.
That's Our Commitment. That's Our Business.**

Our philosophy was established with our first installation in 1958. It applies to every customer we service and extends to cover inquiries for past and current industry providers.

- Immediate Responsiveness
- Upgraded to the Latest Designs
- Competitive Pricing
- OEM Replacement Components
- Custom Retrofits
- Need replacement parts, obviously you require the right parts, right now.
- We have all the original drawings, bills of materials, for Ecodyne/Graver installations.
- We insure the parts you order are the right parts, regardless of who originally built it.
- Shipments as required and service to do the job right the first time.

Ecodyne Aftermarket **WE CAN DO IT -**

Alberta-Pacific Forest Products, Boyle, Alberta (Job 31096)

Required a replacement coupling gear for one of the multiple hydraulic drives, on one of the 170 ft. dia. primary waste treatment CLARIFIERS, installed by Ecodyne in 1992. Once the exact part was determined, the Aftermarket order was issued to Ecodyne, the replacement parts being shipped directly from the USA arrived at site before 10:00 am local time, the very next day.

Stelco, Lake Erie Steel, Nanticoke, Ontario (Job 30989)

Needed to replace a surface wash arm assembly due to years of normal wear and tear in one of the WTP pressure filters. After getting in touch with the ECODYNE Aftermarket Department, they were assured a replacement for the units supplied in 1989, could be fabricated and an order placed, ETA less than 3 weeks time.

Saba Power Co., Sheikhupura, Pakistan (Job 31415)

Planned maintenance required replacing one of many different pressure gauges supplied as components of the Demineralizer Plant, Ecodyne Limited provided in the late 1990's. Because Ecodyne maintains original installation records, drawings and bills of materials, replacement parts were guaranteed.

WHEN IT'S JUST GOT TO GET THERE - LOOK TO ECODYNE TO GET THE JOB DONE
