## REPLACEMENT PARTS

**Original Equipment Replacement Parts Guaranteed. That's Our Commitment. That's Our Business.**

Our philosophy was established with our first installation in 1958. It applies to every customer we service and extends to cover inquiries for past and current industry providers.

- Immediate Responsiveness
- Upgraded to the Latest Designs
- Competitive Pricing
- OEM Replacement Components
- Custom Retrofits
- Need replacement parts, obviously you require the right parts, right now.
- We have all the original drawings, bills of materials, for Ecodyne/Graver installations.
- We insure the parts you order are the right parts, regardless of who originally built it.
- Shipments as required and service to do the job right the first time.

## **BRINE FILTRATION**

**ECODYNE IS INTO "BRINE" IN A BIG WAY!**

Ecodyne's Precoat filter elements were specifically designed and developed by Ecodyne for chlor-alkali BRINE service. Ecodyne's Precoat filter elements are fabricated from CPVC using precision molded components. The core is CPVC pipe with orifice holes for even flow collection during service, even Precoat distribution during the Precoat step and easy removal of the spent Precoat during back surge cleaning. Outer socks and fastening hardware are specifically selected to function in the unique process conditions. Future replacements if required involve a simple change out procedure.

If it's a complete automated system including skid mounted pressure vessels and Precoat system or just replacement elements give Ecodyne "BRINE" a call, **DOW** have!

## **TUBE SETTLERS/FLOC BARRIERS**

**ECODYNE STILL REMAINS YOUR FIRST CHOICE!**

The addition of TUBE SETTLERS/FLOC BARRIERS to your existing clarification system can increase your system capacity without the need for a larger foot print or expense of new equipment. Ecodyne can review your existing system requirements and determine the best options to refit and/or upgrade existing clarification equipment that best suits your present and future requirements, Not only can we service our own equipment, we have the knowledge and experience to take on any other equipment suppliers, just give us a call, **SYNCRUDE CANADA** did!

## **LET ECODYNE HELP YOU...**

- Personal attention to every detail.
- Solid, dependable and friendly customer service.
- Knowledgeable sales resource team.
- Cost - effective solutions to your particular applications.

**WHEN IT'S JUST GOT TO GET THERE -  
LOOK TO ECODYNE TO GET THE JOB DONE**
